

IETF Hackathon

IETF 115
5-11 November 2022
London UK

Hackathon Plan

- <https://www.rfc-editor.org/rfc/rfc8996.html>
- Experiment with PQ crypto

What got done

- Nmap PR for tls 1.0 and tls 1.1
- <https://github.com/nmap/nmap/pull/2561>
- Docker container with ngtcp2 and OQS tls library.

What we learned

- Challenges due to custom TLS stack in nmap.
- Building issues with OpenSSL.

Wrap Up

Team members:

Nathan Mangar

Jeremie Daniel

Jagveer Loky

Loganaden Velvindron

First timers @ IETF/Hackathon:

Darshan N

Jeevesh “Sarvesh” Dindyal

Keelan Cannoo
